ELECTRONICS

An MTI International Co.

WORLD CLASS  
PERFORMANCE  
IN SINGLE  
SIDED PRINTED  
CIRCUIT BOARDS

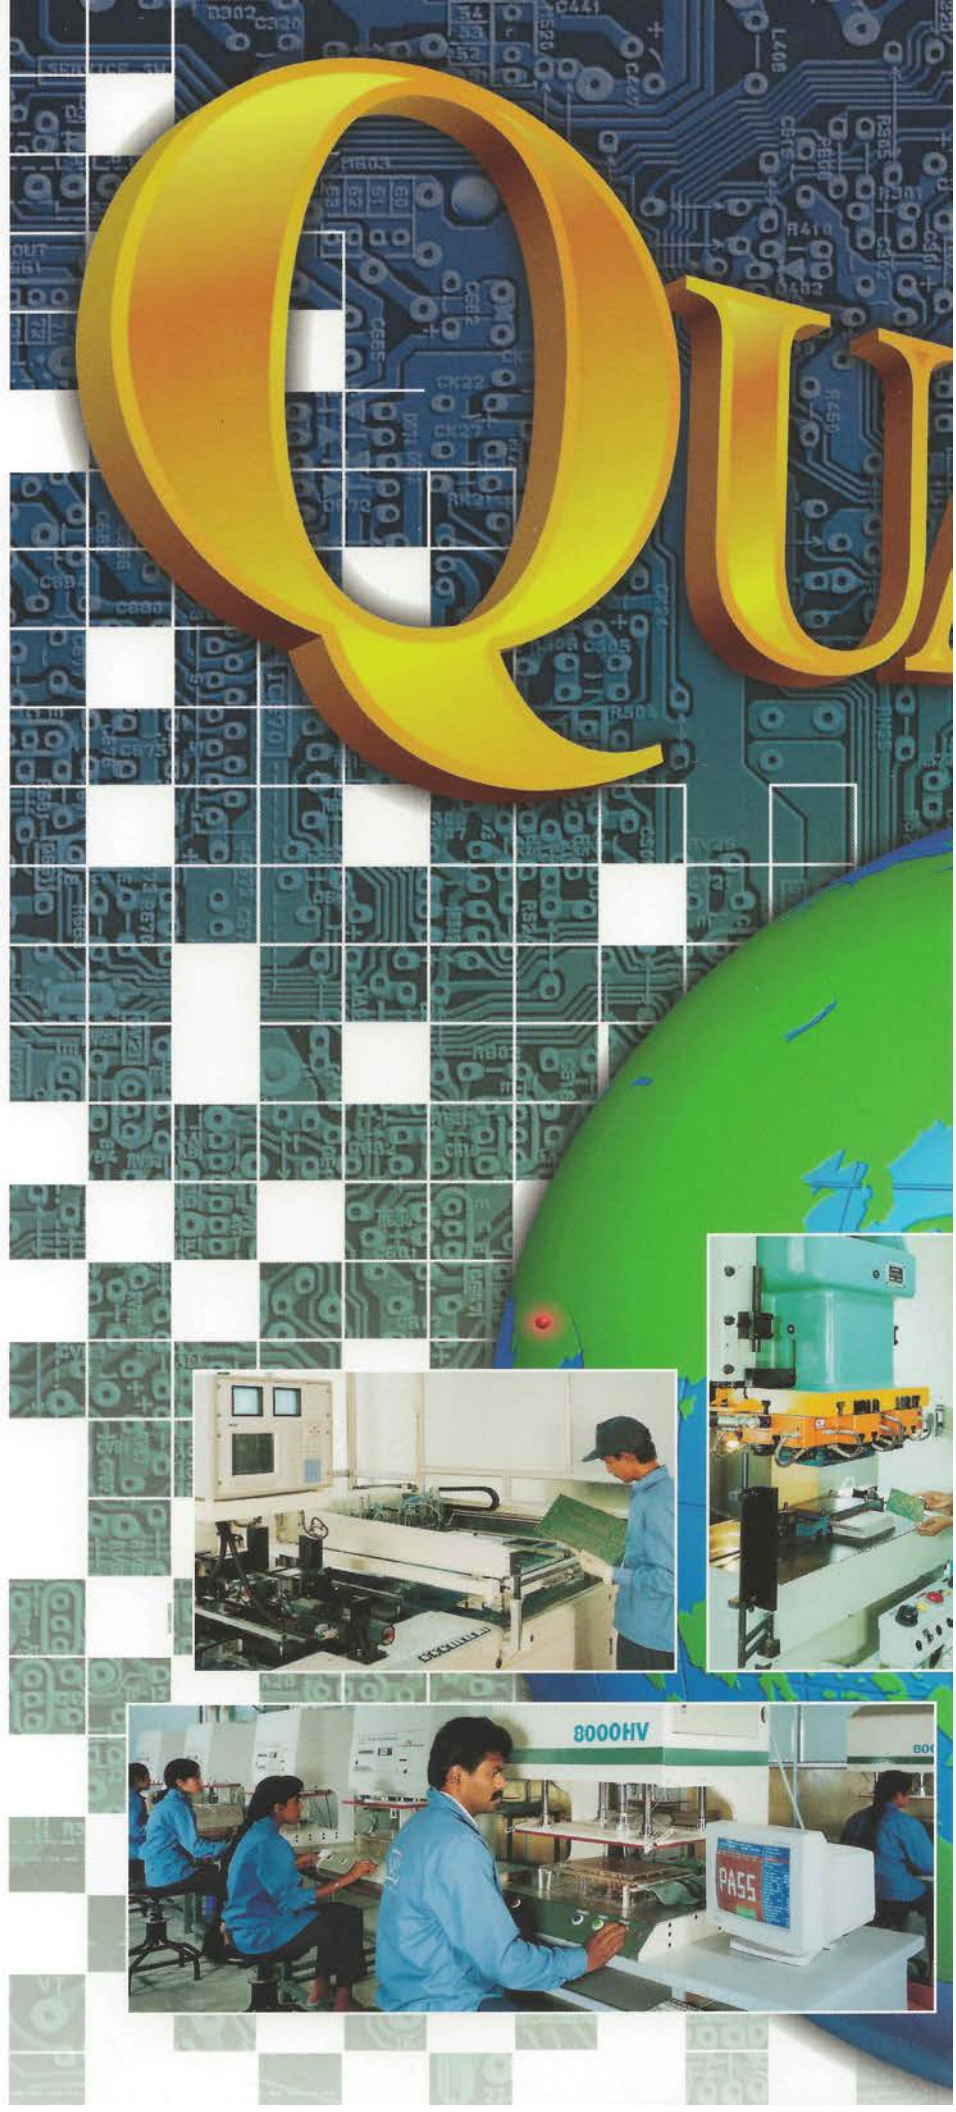

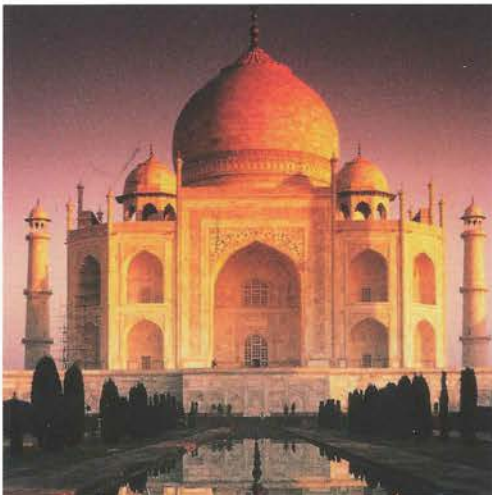

## COMMITTED TO YOUR SUCCESS

In today's competitive electronics market, you need high volume World Class Suppliers of Single Sided Printed Circuit Boards that go beyond customer satisfaction. You need suppliers that act as your partners, committed to your success. High quality and low cost is the expectation. At NSP Electronics this expectation serves as the backbone of our company; doing what it takes - and doing it better - to help ensure our customers' success.

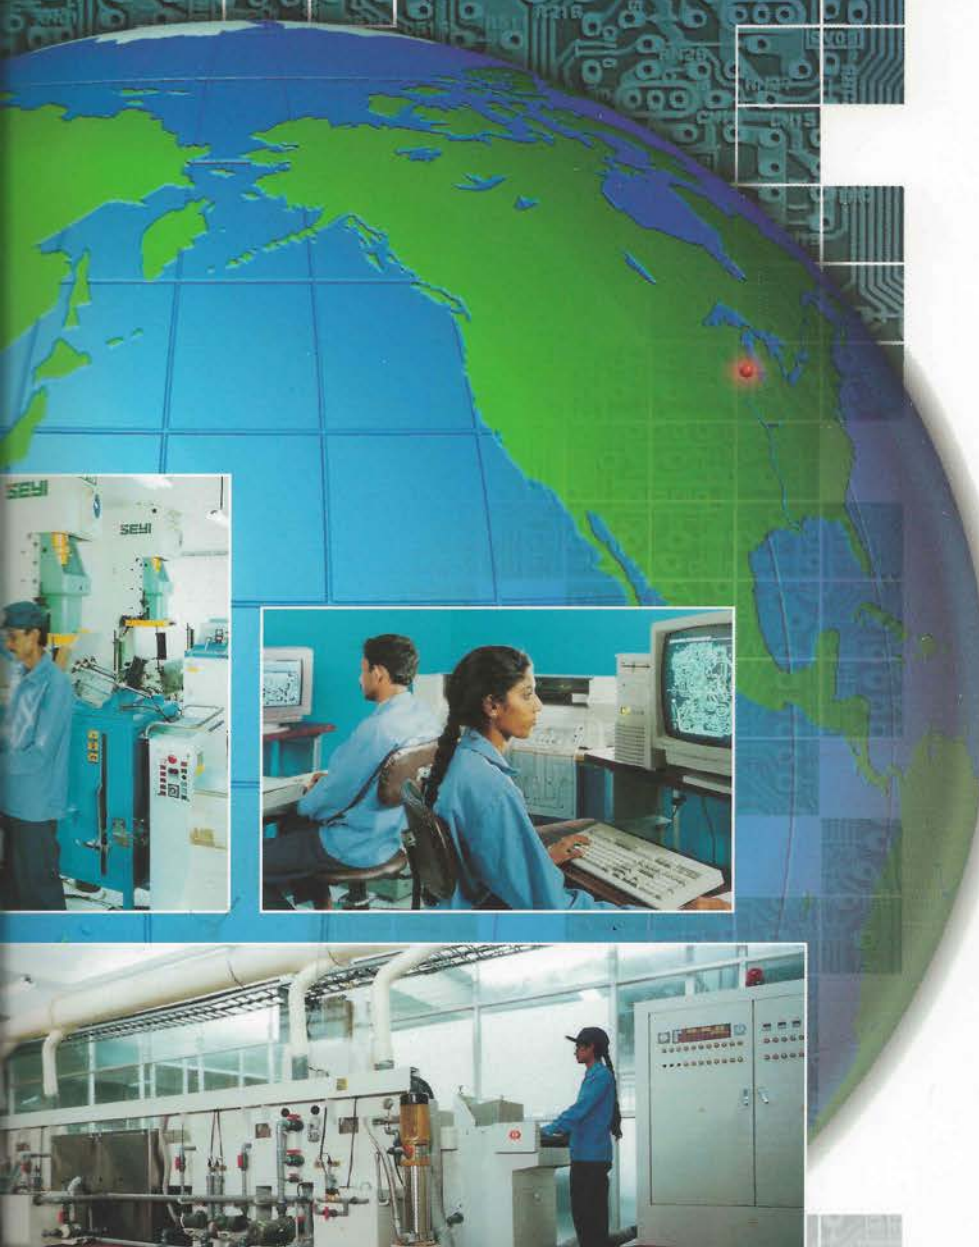

## THE WORLD OF QUALITY IN MANUFACTURING

At NSP we take quality very seriously. In fact, we've made it a way of life. NSP uses the ISO guideline as a quality system basis in all of our activities. Now factor in state-of-the-art facilities and equipment, in-process SPC, revision-controlled process documentation and comprehensive test measures. The result - single sided printed circuit boards built right the first time, and every time. Our commitment to our customers' success is the basis for our continued investment in the most modern facilities and equipment. We deliver quality based on proven processes developed over the past 15 years utilizing the latest technology.

- Over 70,000 square feet of modern facilities.
- Integrated Auto Line that includes Wet Processing, Printing, Etching, Cleaning, Rinsing, Drying, and Punching.
- Fully integrated CAD/CAM system.
- Computer controlled tests for high and low voltages.

# ALTIMA

- UL approved facility for 94-HB, 94-V0, and 94-V1 flammability.
- Typical laminates used are XPC, FR1, FR2, FR4 and CEM1.
- Separate prototype facility.
- Laboratory for inspection of incoming materials and in-process chemicals.
- Fully equipped, modern tool room having conventional EDMs, Wire Cut EDMs, CNC Drilling, Coordinate Measuring Equipment, Lathes, Grinding Machines, and more.

## THE WORLD OF LOW COST

Providing our customers with the highest quality product is not enough. Without low costs the equation remains incomplete. NSP Electronics is dedicated to being the low cost supplier! To provide this edge to our customers, NSP leverages its world-wide materials management resources to ensure that we are procuring the highest quality materials at the lowest possible costs. Couple this with our dedication to combining investment in automation with the low cost, high skilled labor pool of Bangalore, India. The result - World Class Pricing for our customers.

## NSP PEOPLE: THE BRIDGE BETWEEN TWO WORLDS

An uncompromised commitment to customer service is the basis for our entire workforce from the US to India. Committed people are the bridge between our two worlds of quality and low cost. We organize our people into cross-functional customer support teams, facilitated by a program manager in the US and India for each customer. They drive new product introductions, on-going customer support, and continuous improvement efforts. They recognize that your success depends on them, and they accept this responsibility in full.

## THE BEST OF BOTH WORLDS

If you're looking for quality, price, and the people to make it happen, it's all here. NSP is your bridge to the Best of Both Worlds. Call us, we're waiting to help ensure your success.
